## BECKWITH PASS.

The Sierra Valley Leader has this concerning the great railroad pass:

There seems to be an opinion in some localities that Beckwith Pass is a snowy region. This is not a fact as no snow was ever known to fall to any depth on that pass. This has been the winter of all winters in the history of our State for heavy snows and the snow was not more than four feet deep at any time over the pass. There is a railroad built over the pass and there would be no difficulty in running it every day in the year. Now that another transcontinental road is talked of and surveys have been over the proposed line, this pass has been brought into notice again. There is not the least doubt but it would have been the proper route for the Central Pacific and we may expect to see a road in the near future in addition to the one now partly completed. The difficulty is not at the pass, or at this summit, but down the canyon of the Feather river with its rugged precipices. That this route is a good one, with only one-fifth the snow across the Sierra Nevada range there is not the least doubt. Railroad communication with this valley is one thing necessary to our prosperity and why the Central Pacific road was not built over this route, has always been a mystery to thinking people. The Central Pacific Company can turn their road at Reno and build to the Summit and down Feather river, about as cheaply as they can build the proposed tunnel or even keep the present road open for a dozen years. The timber is about all cut on the old road and there is or will be, little doing to maintain a road during the winter in the near future. A Summer road can be worked on the old line, but better winter railroad facilities are demanded and must be had and Beckwith Pass is the only paying route during heavy snow winters. It has cost too much to keep the old line open and there was too much loss while it was closed this winter by the blockade.

The full text of the report of Government Director Spalding of the Union Pacific is printed. Referring to the Pacific Northwest Spalding tells of the wonderful growth of Portland, Seattle, Spokane, Tacoma and other points in Oregon and Washington.

It is certainly in the interest of the Union Pacific, he says, that it should be free to push the extensions forward in this fruitful field. The extensive business that emanates from Puget Sound basin now will be quadrupled within a decade.

In Spalding's estimation it is imperatively demanded of the management of the Union Pacific that it shall push its Northwestern extensions until it has afforded the Puget Sound cities all the facilities they require. Seattle, Tacoma and Port Townsend will welcome the Union Pacific and extend to it privileges and franchises which are now valuable, but which a few years hence will be simply priceless. Having made these connections, it will be the greatest railway system in the world.

The Elko Independent's intimation that Senator Jones is "falling down" on the silver question, is too utterly absurd. The Senator will come nearer securing all that can be had for silver than any man in the country. He has been, now is, and always will be, the greatest champion of the silver cause. When he "falls down" the little silver tots of the Independent office will have time to play marbles.

Within the next four years the Northern Pacific will expend between \$50,000,000 and \$60,000,000 in the Northwest. Henry Villard so informed the Twin City Commercial Club at a banquet given in his honor at St. Paul Monday night. The bulk of this money will be laid out in Montana and Washington.

Speaker Reed will be the principal speaker at the banquet of the American Club, of Pittsburgh, on General Grant's birthday, April 26th. He goes as the guest of the Quay people.

It is reported that the annual salary list of the Atchinson road has been reduced \$500,000, and that out of \$1,000,000 has been made in other expenses.

## A Supposed Murderer Captured.

Special to the Journal.

WINNEMUCOA, April 16.—Detective J. F. Triplett arrived last night from Elko and arrested a young man named E. L. Tracy, wanted in Chicago for a murder committed last November. Tracy spent the winter on a ranch in Ruby valley with John Abel, an uncle, and came here nine days ago and went to work on the railroad.

## JUSTICE FIELD.

He Will Not Come to California to Hold Court this Year.

Justice Stephen J. Field, who has been ill for a day or two past, informs the Washington agent of the California Associated Press that he will not return to California this year, but will spend the summer in Europe. He says "For fifteen consecutive years I have been going yearly to California to hold Circuit Court, and I feel the need of rest. Besides that, I do not find it quite agreeable going every year. I must, of course, render many judgments which, while it makes many friends, must also make many enemies. It wears on one in time to follow it up for consecutive years, when we are required by law to go but once in two years. Between the praise of litigants who are awarded suits and the criticisms of those who lose, the situation becomes trying, consequently I think I shall take a short season to myself." It is generally understood that Judge Sawyer will resign his position on the bench within a very short time. He is on his way to Washington and will consult with the President regarding his successor.

## SILVER NOTES.

The Ins and Outs of the Great Subject for Nevadans.

WASHINGTON, April 10, 1890.

Your issue of the 5th instant, containing my letter on the silver question, came duly to hand this morning, and in the afternoon I received in the press gallery of the Senate a visit from Mr. Stark, the bugleman of Mr. Warner, the Chairman of the National Silver Convention Executive Committee.

He came to tell me that Mr. Warner and he have hugely enjoyed my letter of the 27th of March written to you, and published in your issue of the 5th instant. He said it was a funny letter, and that he laughed a great deal at the time of reading of the same and ever since. What he might have done in company with Warner, and before he came to the Capitol, I do not know, but he did not seem at all laughingly inclined when he spoke to me, in fact, he seemed more ready and willing to cry than laugh, but then some persons are more lugubriously inclined outwardly when they profess to be overbubbling with joyous emotion inwardly. Perhaps Mr. Stark is like that maiden which was saddest when he sang. As it is it may, Mr. Stark no doubt was pleased with the notice I have given him, and he wished to impress on me the idea that when he told me that the smelters had chipped in some money and the miners did not, that he was only joking, and did not mean to find fault with the miners. As a joker, and one who hugely enjoyed the censure as depicted in my letter, Mr. Stark is a wonderful success.

Mr. Stark no doubt in a mood of extraordinary jocularity addressed last week an open letter to the Hon. John Sherman, Senator from Ohio, on the silver question; censuring at the same time that Senator and charging him with the demonization of silver; it was published here in their weekly, the mouthpiece of the Greenbackers, and a marked copy was sent to the Senator from Ohio. That Mr. Sherman did not condescend to take notice of it, I need not specially dwell upon. If Senator Sherman should stop to argue with everybody who barks at his heels he would never get home; and yet this wholesale accusation as to the demonization of silver by the Senator from Ohio has been, I think, carried a little too far and needs an explanation. As I was here in Washington when silver was demonized and have watched the whole proceedings, being besides a friend of silver before that time and ever since, I believe it is not more than right that I should give the history of that particular legislation, fortifying my statement with documentary proofs in my possession. On the 29th of May, 1873, in the Senate of the United States here in Washington, was reported House bill, No. 2,934, as it had passed a few days before the House of Representatives. I was present and I refer to the Hon. Senator, Wm. M. Stewart, who was at that time and now Senator from Nevada and on the floor of the Senate when the bill was reported to the Senate and ordered to be printed. When Section 14 was reached we all heard the following: "That the gold coins of the United States shall be a one-dollar piece, which at the standard weight of twenty-five and eighth-tenths grains shall be the unit of value." That famous section is in the original bill now before me, a bill yellow tinted with the age of nearly eighteen years. That Section 14 demonized silver and made gold the standard or the unit of value. But this is not all, let us turn over a few pages of that bill, upon page 10, is Section 16, which reads as follows: "That the silver coins of the United States shall be a dollar, a half dollar, or fifty-cent piece, a quarter dollar, or twenty-five cent piece, and a dime, or ten cent piece; which coins shall be a legal tender at their nominal value, for any amount not exceeding five dollars in any one payment."

That capped the climax, it reduced the silver coins of the United States to the degraded rank as subsidiary coins, taking away the legal tender quality to any amount and limiting them to five dollars only.

This bill was, after being read, referred to the Senate Finance Committee, Hon. John Sherman, of Ohio, Chairman. Referring a bill to a committee does not make the chairman of that committee responsible for the good or the bad contained in the bill and to charge the Senator from Ohio with the demonization of silver is not only ridiculous but actually a willful misrepresentation of facts.

This bill, No. 2,934, originated in the House in 1871, was framed by the Hon. Mr. Hooper, member of Congress from Massachusetts, was referred to the Committee on Finance, Weights and Measures, reported back favorably and passed by a large majority of the House in May, 1872. It was discussed in the House and Senate 118 times and the Congressional Globe of the Forty-Second Congress, first, second and third Sessions, testifies to that effect.

On January 17, 1873, page 674 of the Congressional Globe, appears the following: Mr. Casserly, Senator from California, in discussing the Coinage Act, said: "We have more silver than we want. Nevada appears to be getting ready to deluge the world with silver. I see that her silver production last year was probably over \$20,000,000. Now, Sir, there could not be a better basis for exchange, nor a more profitable operation for the American people, than to take the gold bullion of Australia and coin it in San Francisco and diffuse that much more specie through all the arteries of business, getting ready for the resumption of specie payments, of which the Senator (Mr. Sherman, of Ohio) spoke so well and so truly the other day, and to give them in return

for their bullion this silver which we do not want and which before a great while may be at an absolute discount on our hands."

Now Senator Stewart, of Nevada, was present and on the floor of the Senate, and when the question came up as to the expenses of coinage, the following passage occurs:

Mr. Stewart, of Nevada: "There is a bullion fund provided for the purpose."

I simply state this last passage to prove that Mr. Stewart was present and that he is a witness on my side to prove the truth of my assertion that it was Senator Casserly, of California, who attacked in 1873 the precious white metal silver and wanted it, yes succeeded to have it demonized, and not Senator Sherman as Mr. Stark wishes to prove in his open letter to the Senator from Ohio.

In fact Mr. Stark, in his humorous joking exercises, is very unfortunate to make statements, presumably half in fun, but nevertheless in whole earnest. But he is not the only joker in that committee which misrepresents the silver interests of this country.

Mr. Warner in his memorial to the people and Congress had the very questionable taste to attack ex-President Cleveland and thus estranged from the 126 votes which we silver men had in the House and Senate 34 Democratic votes; of course Mr. Stark his bugleman will say it was only a joke. Still further, they engaged a person, who only in January last told me that he knew nothing of the merits of the silver question until he came to St. Louis as a delegate in November last, to deliver a speech on the silver question in New York City. He too was very funny and jokingly referred to President Harrison as "poor pious Harrison," and now and then interlarded his funny speech: "Mr. Harrison in his poor pious way, etc., etc."

All these jokes are very good in their way, and no doubt amuse the gentleman of that executive committee and Mr. Stark the unlimited joker, but this fun is making a lot of enemies to the cause of silver right here in Washington; ex-President Cleveland has many warm friends in Congress and they will resent; President Harrison has not only friends but lots of statesmen in both Houses of Congress, who not only love him but who expect good many favors in the shape of patronage, and have spoken to me as not relishing the silver-tongued jokes of the members of that committee. As to Senator Sherman he, no doubt, will treat the jokes of Mr. Stark with as much contempt as he has treated similar insinuations heretofore made by parties whose conscience as to the demonization of silver in 1873 led them to utter excuses for their conduct which were based not entirely on fact nor in conformity with the accepted code of honor and truth. Alas! this funny business has been carried too far in discussing the silver question and the sooner the "Joe Millers" of that committee see the error of their ways the better for our case.

## Fit Subjects for Prison.

Special to the Journal.

SAN FRANCISCO, April 16.—Four men named Francis White, James O'Brien, James McCluskey and Matthew Sullivan, were arrested last night on a charge of robbery and battery, and will probably have to serve long terms in prison. On Monday they visited a resort on the Mission road, and after terrorizing the proprietor and compelling him to give them liquor, they went to the milk ranch of August Huber, who was alone in the house with his wife and servant girl. The men broke into the house by kicking down the front door, and after beating Huber into a state of insensibility they subjected the women to shameful treatment, though they were frightened away by the arrival of some hired men before they had accomplished their avowed purposes with regard to the women. They then returned to the saloon where they robbed a barber and a carpenter of money, watches and other valuables.

He cheerfully withdrew any portion of his remarks that might seem derogatory to Stanford or to his management of the railroad." ## HENRY ROLFE PARALYZED

He Suffers Two Shocks Which Disable His Left Side.  
The Virginia Enterprise, of Wednesday, says:

Henry Rolfe, the well-known stock broker of this city, yesterday suffered two strokes of paralysis which crippled his left side. The first shock was felt by him at 3:30 in the afternoon. He was in his office in Odd Fellows' building at the time. Thinking that the numbness he felt would soon pass away, he lay down upon a lounge. About 6 o'clock he suffered a second shock, which was so severe that it left his whole left side dead and useless. He then felt that his illness was really serious, and no time was lost in summoning medical assistance. He was taken to his rooms at the International Hotel, where all is being done for him that medical skill can suggest.

Although he has lost the use of his limbs on the left side, his head is not affected, his mind is as clear as ever. The physicians are quite confident that he will be all right again in due time. All were sorry to hear of Henry's misfortune, but every person acquainted with him is pretty sure he will soon recover, as he is of a robust constitution and there are not wanting many instances on the Comstock of persons whose cases were much worse than his.

## MUSIC AND COMEDY.

The Greatest Musical Comedy Success of the Year, "Zig Zag," to be the Next Attraction.

The New York Herald in criticising the performance of the new three-act musical comedy, "Zig Zag," among many complimentary remarks said: "It was a tremendous house which greeted the company at the Bijou last night, and we are glad to say that the comedy made an instantaneous hit. The piece has very handsome costumes, scenery and effects. It is of a light, breezy nature, full of telling hits on national topics of interest and rippling over with most enjoyable fun. The songs, duets and choruses are wonderfully catchy, and are capably sung by the principals and chorale corps. One of the principal acts in the Turkish bath scene, which was very effective, and as a whole "Zig Zag" proved a strong attraction. The cast was made up of old favorites and at the conclusion of the piece they were all called before the curtain and cheered to the echo."

## Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-swt-y

## WHAT ON EARTH

Is the reason people will not, can not or do not see any difference in cheap nostrums put up by cheap John houses or irresponsible parties or enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BEE'S BLOOD PURIFIER AND BLOOD MAKER, and every bottle that does not do its work will cost you nothing.

## PATRIOTISM IN THE PUBLIC SCHOOLS.

The Stars and Stripes to be Flung to the Breeze from the High School Building

Some time since the ladies of the Relief Corps kindly presented a most beautiful flag to the public schools of Reno. Appropriate exercises were held at the school building at the time of the presentation, the scholars of the High School acting as representatives of the whole. The hoisting of the flag has been delayed until the present time, owing to the severity and long continuance of the winter and the fact that there was no staff on which to raise it. Recently the trustees have placed on the centre of the brick building, a fine flag-staff, from which it is now proposed to unfurl "the banner of the free" with suitable ceremonies to-morrow, Friday, afternoon, should the weather prove favorable. If the day be stormy these ceremonies will be postponed until a more auspicious time. An interesting programme has been arranged for the occasion, the ladies of the Relief Corps are expected to be present, and a most cordial invitation is extended to the public generally to attend and join in the exercises, thus aiding in inculcating patriotism in the juvenile breast.

## PROGRAMME.

America, our country blest,  
Our joy, our hope, our pride  
That broadly spreads from East to West  
Unto each ocean's side.  
Washed by the waves that ever break  
Along each rugged shore,  
While Freedom's breezes o'er the land  
Are wafted ever more.

On Freedom's breezes floats our flag,  
O'er country, town and sea  
Its colors bright are chosen well  
For emblems of the free.  
Red tells of deeds of valor wrought  
By men both brave and true,  
White stands for love of home most pure,  
While truth speaks through the blue.

Long may our banner's graceful folds  
Unfurled o'er land and sea,  
The "Stars and Stripes" for aye be known  
As emblems of the free.  
And may our daughters and our sons  
Feel all the reverence due  
That honored flag their eyes love well  
Our own Red, White and Blue.

## NEW TO-DAY.

## A HORSE WHO CAN TALK.

Everybody has heard of a "horse laugh." But who has ever seen an equine gifted with the power of speech? Such an animal would be pronounced a miracle; but so would the telegraph and the telephone a hundred years ago. Why, even very recently a cure for consumption, which is universally acknowledged to be incurable, Dr. Pierce's Golden Medical Discovery will cure it, if taken in time and given a fair trial. This world-renowned remedy will not make new lungs, but it will restore diseased ones to a healthy state when other means have failed. Thousands gratefully testify to this. It is the most potent tonic, or strength-restorer, alterative, or blood-cleanser and nutritive, or flesh-builder, known to mankind. For Weak Lungs, Spitting of Blood, Bronchitis, Asthma, Catarrh in the Head, and all Lingular Coughs, it is an unequalled remedy. In derangements of the stomach, liver and bowels, as Indigestion, or Dyspepsia, Biliousness, or "Liver Complaint," Chronic Diarrhea, or kindred ailments, it is a sovereign remedy.

"Golden Medical Discovery" is the only medicine of its class, sold by druggists, under a printed guarantee, from the manufacturers, that it will benefit or cure in every case of disease for which it is recommended, or money paid for it will be promptly refunded.

## WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

## How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrofula sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CARLILE, Nauright, N. J.
